Organizer-Led Program — Discover the Latest Technology, Hands-On Exhibits, and More!

Highlight❶ Space Industry Zone [Atrium]

Explore JAXA's space models and discover advanced technologies and products from SMEs that support small satellite development. Discover how to enter the growing space sector and find opportunities to partner with businesses across industries.

IWAYA IWAYA INC.

Space Tourism Cabin

See the actual cabin that reached an altitude of 20 km on a crewed test flight for space tourism.

Try Out the Cabin A few sessions are planned each day, on a first-come, first-served basis.

Enjin Space Engineering Team is also exhibiting in this zone.

Highlight❷ Physical AI & Robotics Zone [West Hall 2]

Explore the latest developments in physical AI and its potential to ease labor shortages and boost productivity. Discover standout robotics products, see automation robots in action, and learn how they're developed. Get the latest insights for businesses looking to deploy these technologies in their own operations or get started in physical AI and robotics development.

SoftBank Robotics
STEAMA

Sample ramen prepared by a steam-cooking robot.

PUDU MT1

Service robotics solutions automate cooking, transport, and cleaning, helping people and robots work side by side.

BOOSTER ROBOTICS

Embodied AI moves the future forward. A platform for developing next-generation humanoid robots.

Highlight❸ Hands-On Exhibition Zone [Atrium]

Experience Next-Generation Technology with All Five Senses! Explore technologies that adapt one person's sensations to how another person perceives them, turn materials like wood and glass into touch sensors, and more. Try these advanced products and technologies firsthand and find inspiration for your own product development.

docomo FEEL TECH

Record and preserve a range of experiences, including sights, sounds, and the sense of touch. Relive those experiences using haptic devices such as spheres and cushions.

Canon MREAL Collaborator

Explore life-size 3D computer graphics using a range of XR devices. This XR collaboration software lets multiple users view and discuss the same 3D content as if they were in the same room.

GROOVE X

LOVOT

A robot that stays by your side and wins your heart. A companion robot that brings to life a future where robots become part of the family.

GATARI Inc., Japan Display Inc., and Pixie Dust Technologies Inc., are also exhibiting in this zone.
